INDEPENDENT AUDITOR'S REPORT

Board of Directors New Caney Municipal Utility District Montgomery County, Texas

Opinions

We have audited the accompanying financial statements of the governmental activities and each major fund of New Caney Municipal Utility District (the "District") as of and for the year ended May 31, 2024, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities and each major fund of the District as of May 31, 2024, and the respective changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the District, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis and the Schedule of Revenues, Expenditures and Changes in Fund Balance - Budget and Actual - General Fund be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The supplementary information required by the Texas Commission on Environmental Quality as published in the *Water District Financial Management Guide* is presented for purposes of additional analysis and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The supplementary information, excluding that portion marked "Unaudited" on which we express no opinion or provide an assurance, has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE YEAR ENDED MAY 31, 2024

Management's discussion and analysis of the financial performance of New Caney Municipal Utility District (the "District") provides an overview of the District's financial activities for the fiscal year ended May 31, 2024. Please read it in conjunction with the District's financial statements.

USING THIS ANNUAL REPORT

This annual report consists of a series of financial statements. The basic financial statements include: (1) combined fund financial statements and government-wide financial statements and (2) notes to the financial statements. The combined fund financial statements and government-wide financial statements combine both: (1) the Statement of Net Position and Governmental Funds Balance Sheet and (2) the Statement of Activities and Governmental Funds Statement of Revenues, Expenditures and Changes in Fund Balances. This report also includes required and other supplementary information in addition to the basic financial statements.

GOVERNMENT-WIDE FINANCIAL STATEMENTS

The District's annual report includes two financial statements combining the government-wide financial statements and the fund financial statements. The government-wide financial statements provide both long-term and short-term information about the District's overall status. Financial reporting at this level uses a perspective similar to that found in the private sector with its basis in full accrual accounting and elimination or reclassification of internal activities.

The Statement of Net Position includes all of the District's assets, liabilities, and deferred outflows of resources with the difference reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the District as a whole is improving or deteriorating. Evaluation of the overall health of the District would extend to other non-financial factors.

The Statement of Activities reports how the District's net position changed during the current fiscal year. All current year revenues and expenses are included regardless of when cash is received or paid.

FUND FINANCIAL STATEMENTS

The combined statements also include fund financial statements. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The District has three governmental fund types. The General Fund accounts for resources not accounted for in another fund, customer service revenues, operating costs and general expenditures. The Debt Service Fund accounts for ad valorem taxes and financial resources restricted, committed or assigned for servicing bond debt and the cost of assessing and collecting taxes. The Capital Projects Fund accounts for financial resources restricted, committed or assigned for acquisition or construction of facilities and related costs.

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE YEAR ENDED MAY 31, 2024

FUND FINANCIAL STATEMENTS (Continued)

Governmental funds are reported in each of the financial statements. The focus in the fund statements provides a distinctive view of the District's governmental funds. These statements report short-term fiscal accountability focusing on the use of spendable resources and balances of spendable resources available at the end of the year. They are useful in evaluating annual financing requirements of the District and the commitment of spendable resources for the near-term.

Since the government-wide focus includes the long-term view, comparisons between these two perspectives may provide insight into the long-term impact of short-term financing decisions. The adjustments columns, the Reconciliation of the Governmental Funds Balance Sheet to the Statement of Net Position and the Reconciliation of the Governmental Funds Statement of Revenues, Expenditures, and Changes in Fund Balances to the Statement of Activities explain the differences between the two presentations and assist in understanding the differences between these two perspectives.

NOTES TO THE FINANCIAL STATEMENTS

The accompanying notes to the financial statements provide information essential to a full understanding of the government-wide and fund financial statements.

OTHER INFORMATION

In addition to the financial statements and accompanying notes, this report also presents certain required supplementary information ("RSI") and other supplementary information. A budgetary comparison schedule is included as RSI for the General Fund.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

Net position may serve over time as a useful indicator of the District's financial position. In the case of the District, assets and deferred outflows of resources exceeded liabilities by \$10,712,847 as of May 31, 2024. A portion of the District's net position reflects its net investment in capital assets which includes land, buildings and equipment as well as the water and wastewater facilities, less any debt used to acquire those assets that is still outstanding.

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE YEAR ENDED MAY 31, 2024

GOVERNMENT-WIDE FINANCIAL ANALYSIS (Continued)

The following table presents a comparative analysis of government-wide changes in net position for the current and prior fiscal years.

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE YEAR ENDED MAY 31, 2024

FINANCIAL ANALYSIS OF THE DISTRICT'S GOVERNMENTAL FUNDS

The District's combined fund balances as of May 31, 2024, were \$16,073,175, a decrease of \$4,306,678 from the prior year.

The General Fund fund balance increased by \$477,271, primarily due to service revenues and investment revenues exceeding operating and capital expenditures.

The Debt Service Fund fund balance increased by \$149,423, primarily due to the structure of the District's outstanding debt.

The Capital Projects Fund fund balance decreased by \$4,933,372, primarily due to capital expenditures paid from bond issues sold in the prior fiscal years.

GENERAL FUND BUDGETARY HIGHLIGHTS

The Board of Directors adopted a General Fund budget for the current fiscal year. Actual revenues were \$295,885 more than budgeted revenues and actual expenditures were \$181,386 less than budgeted expenditures which resulted in a positive variance of \$477,271. See the budget to actual comparison for more information.

LONG-TERM DEBT ACTIVITY

As of May 31, 2024, the District had total bond debt payable of \$49,278,524. The changes in the debt position of the District during the fiscal year ended May 31, 2024, are summarized as follows:

Bond Debt Payable, June 1, 2023	\$ 50,818,524
Less: Bond Principal Paid	 (1,540,000)
Bond Debt Payable, May 31, 2024	\$ 49,278,524

The District carries an underlying rating of A3. The District's bonds carry insured ratings of AA and/or A-1 by virtue of bond insurance issued by Build America Mutual Assurance Company or Assured Guaranty Municipal Corp. Credit enhanced ratings provided through bond insurance policies are subject to change based on changes to the ratings of the insurers.

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE YEAR ENDED MAY 31, 2024

CAPITAL ASSETS

Capital assets as of May 31, 2024, total \$44,220,415 (net of accumulated depreciation) and include land, equipment and buildings as well as the water and wastewater systems. Capital asset additions during the current year included the purchase of vehicles and equipment as well as improvements to the District's water and wastewater systems.

RECONCILIATION OF THE GOVERNMENTAL FUNDS STATEMENT OF REVENUES, EXPENDITURES AND CHANGES IN FUND BALANCES TO THE STATEMENT OF ACTIVITIES FOR THE YEAR ENDED MAY 31, 2024

Net Change in Fund Balances - Governmental Funds	\$ (4,306,678)
Amounts reported for governmental activities in the Statement of Activities are different because:	
Governmental funds report tax revenues when collected. However, in the government-wide financial statements, revenue is recorded in the accounting period for which the taxes are levied.	47,188
Governmental funds report penalty and interest revenue on property taxes when collected. However, in the government-wide financial statements, revenue is recorded when penalties and interest are assessed.	2,367
Governmental funds do not account for depreciation. However, in the government-wide financial statements, capital assets are depreciated and depreciation expense is recorded in the Statement of Activities.	(1,901,021)
Governmental funds report capital outlay as expenditures in the period purchased. However, in the government-wide financial statements, capital assets are increased by new purchases and the Statement of Activities is not affected.	3,546,440
Governmental funds report bond principal payments as expenditures. However, in the government-wide financial statements, bond principal payments are reported as decreases in long-term liabilities.	1,540,000
Governmental funds report interest expenditures on long-term debt as expenditures in the year paid. However, in the government-wide financial statements, interest is accrued on the long-term debt through fiscal year-end.	14,099
Change in Net Position - Governmental Activities	\$ (1,057,605)

NOTES TO THE FINANCIAL STATEMENTS MAY 31, 2024

NOTE 1. CREATION OF DISTRICT

New Caney Municipal Utility District (the "District") was originally created effective June 1, 1978, by an order of the Texas Water Commission, now known as the Texas Commission of Environmental Quality (the "Commission"). Pursuant to the provisions of Chapters 49 and 54 of the Texas Water Code, the District is empowered to purchase, operate and maintain all facilities, plants and improvements necessary to provide water, sanitary sewer service, storm sewer drainage, irrigation, solid waste collection and disposal, including recycling, and to construct parks and recreational facilities for the residents of the District. The District is also empowered to contract for or employ its own peace officers with powers to make arrests and to establish, operate and maintain a fire department to perform all fire-fighting activities within the District. The Board of Directors held its first meeting on June 5, 1978.

NOTE 2. SIGNIFICANT ACCOUNTING POLICIES

The accompanying financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America as promulgated by the Governmental Accounting Standards Board ("GASB"). In addition, the accounting records of the District are maintained generally in accordance with the *Water District Financial Management Guide* published by the Commission.

The District is a political subdivision of the State of Texas governed by an elected board. GASB has established the criteria for determining whether or not an entity is a primary government or a component unit of a primary government. The primary criteria are that it has a separately elected governing body, it is legally separate, and it is fiscally independent of other state and local governments. Under these criteria, the District is considered a primary government and is not a component unit of any other government. Additionally, no other entities meet the criteria for inclusion in the District's financial statement as component units.

<u>Financial Statement Presentation</u>

These financial statements have been prepared in accordance with GASB Codification of Governmental Accounting and Financial Reporting Standards Part II, Financial Reporting ("GASB Codification").

The GASB Codification sets forth standards for external financial reporting for all state and local government entities, which include a requirement for a Statement of Net Position and a Statement of Activities. It requires the classification of net position into three components: Net Investment in Capital Assets; Restricted; and Unrestricted. These classifications are summarized on the following page.

NOTES TO THE FINANCIAL STATEMENTS MAY 31, 2024

NOTE 2. SIGNIFICANT ACCOUNTING POLICIES (Continued)

Financial Statement Presentation (Continued)

- Net Investment in Capital Assets This component of net position consists of capital assets, including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, mortgages, notes, or other borrowings that are attributable to the acquisition, construction, or improvements of those assets.
- Restricted Net Position This component of net position consists of external constraints placed on the use of assets imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulation of other governments or constraints imposed by law through constitutional provisions or enabling legislation.
- Unrestricted Net Position This component of net position consists of assets that do not meet the definition of Restricted or Net Investment in Capital Assets.

When both restricted and unrestricted resources are available for use, generally it is the District's policy to use restricted resources first.

Government-Wide Financial Statements

The Statement of Net Position and the Statement of Activities display information about the District as a whole. The District's Statement of Net Position and Statement of Activities are combined with the governmental fund financial statements. The District is viewed as a special-purpose government and has the option of combining these financial statements.

The Statement of Net Position is reported by adjusting the governmental fund types to report on the full accrual basis, economic resource basis, which recognizes all long-term assets and receivables as well as long-term debt and obligations. Any amounts recorded due to and due from other funds are eliminated in the Statement of Net Position.

The Statement of Activities is reported by adjusting the governmental fund types to report only items related to current year revenues and expenditures. Items such as capital outlay are allocated over their estimated useful lives as depreciation expense.

Fund Financial Statements

The District's fund financial statements are combined with the government-wide financial statements. The fund financial statements include a Balance Sheet and Statement of Revenues, Expenditures and Changes in Fund Balances.

NOTES TO THE FINANCIAL STATEMENTS MAY 31, 2024

NOTE 2. SIGNIFICANT ACCOUNTING POLICIES (Continued)

Governmental Funds

The District has three governmental funds and considers each to be a major fund.

<u>General Fund</u> - To account for resources not required to be accounted for in another fund, customer service revenues, operating costs and general expenditures.

<u>Debt Service Fund</u> - To account for ad valorem taxes and financial resources restricted, committed or assigned for servicing bond debt and the cost of assessing and collecting taxes.

<u>Capital Projects Fund</u> - To account for financial resources restricted, committed or assigned for acquisition or construction of facilities and related costs.

Basis of Accounting

The District uses the modified accrual basis of accounting for governmental fund types. The modified accrual basis of accounting recognizes revenues when both "measurable and available." Measurable means the amount can be determined. Available means collectible within the current period or soon enough thereafter to pay current liabilities. The District considers revenues reported in the governmental funds to be available if they are collectible within 60 days after year end. Also, under the modified accrual basis of accounting, expenditures are recorded when the related fund liability is incurred, except for principal and interest on long-term debt, which are recognized as expenditures when payment is due.

Property taxes considered available by the District and included in revenue include taxes collected during the year and taxes collected after year-end, which were considered available to defray the expenditures of the current year. Deferred inflows of resources related to property tax revenues are those taxes which the District does not reasonably expect to be collected soon enough in the subsequent period to finance current expenditures.

Amounts transferred from one fund to another fund are reported as other financing sources or uses. Loans by one fund to another fund and amounts paid by one fund for another fund are reported as interfund receivables and payables in the Governmental Funds Balance Sheet if there is intent to repay the amount and if the debtor fund has the ability to repay the advance on a timely basis. As of May 31, 2024, the Debt Service Fund owed the General Fund \$249,850 for the operating portion of the Defined Area tax levy.

NOTES TO THE FINANCIAL STATEMENTS MAY 31, 2024

NOTE 2. SIGNIFICANT ACCOUNTING POLICIES (Continued)

Capital Assets

Capital assets, which include property, plant, equipment, and infrastructure assets, are reported in the government-wide Statement of Net Position. All capital assets are valued at historical cost or estimated historical cost if actual historical cost is not available. Donated assets are valued at their fair market value on the date donated. Repairs and maintenance are recorded as expenditures in the governmental fund incurred and as an expense in the government-wide Statement of Activities. Capital asset additions, improvements and preservation costs, that extend the life of an asset, are capitalized and depreciated over the estimated useful life of the asset. Engineering fees and certain other costs are capitalized as part of the asset.

Infrastructure assets are capitalized if they have an original cost greater than \$5,000 and a useful life over two years, and other type assets are capitalized if they have a total cost of \$500 or more. Depreciation is calculated on each class of depreciable property using the straight-line method of depreciation. Buildings are amortized over a period of 40 years. Water and wastewater facilities are amortized over periods ranging from 10 to 45 years. All other equipment is amortized over periods ranging from 3 to 20 years.

Inventory

Inventory is recorded at current replacement cost and has a May 31, 2024, balance of \$195,210. Current replacement cost is obtained from a third-party source for each specific item on hand at the end of the fiscal year.

Budgeting

An annual budget is adopted for the General Fund by the District's Board of Directors. The budget is prepared using the same method of accounting as for financial reporting. The original General Fund budget for the current year was not amended. The Schedule of Revenues, Expenditures and Changes in Fund Balance – Budget and Actual – General Fund presents the budgeted amounts compared to the actual amounts of revenues and expenditures for the current year.

Pensions

The District employees make payments into an IRS code Section 457 plan for their benefit (see Note 8). The Internal Revenue Service has determined that the directors are considered to be employees for federal payroll tax purposes only. Directors do not participate in the pension plan.

NOTES TO THE FINANCIAL STATEMENTS MAY 31, 2024

NOTE 2. SIGNIFICANT ACCOUNTING POLICIES (Continued)

Measurement Focus

Measurement focus is a term used to describe which transactions are recognized within the various financial statements. In the government-wide Statement of Net Position and Statement of Activities, the governmental activities are presented using the economic resources measurement focus. The accounting objectives of this measurement focus are the determination of operating income, changes in net position, financial position, and cash flows. All assets and liabilities associated with the activities are reported. Fund equity is classified as net position.

Governmental fund types are accounted for on a spending or financial flow measurement focus. Accordingly, only current assets and current liabilities are included on the Balance Sheet, and the reported fund balances provide an indication of available spendable or appropriable resources. Operating statements of governmental fund types report increases and decreases in available spendable resources.

Fund balances in governmental funds are classified using the following hierarchy:

Nonspendable: amounts that cannot be spent either because they are in nonspendable form or because they are legally or contractually required to be maintained intact.

Restricted: amounts that can be spent only for specific purposes because of constitutional provisions, or enabling legislation, or because of constraints that are imposed externally.

Committed: amounts that can be spent only for purposes determined by a formal action of the Board of Directors. The Board is the highest level of decision-making authority for the District. This action must be made no later than the end of the fiscal year. Commitments may be established, modified, or rescinded only through ordinances or resolutions approved by the Board. The District does not have any committed fund balances.

Assigned: amounts that do not meet the criteria to be classified as restricted or committed, but that are intended to be used for specific purposes. The District has not adopted a formal policy regarding the assignment of fund balances and does not have any assigned fund balances.

Unassigned: all other spendable amounts in the General Fund.

When expenditures are incurred for which restricted, committed, assigned or unassigned fund balances are available, the District considers amounts to have been spent first out of restricted funds, then committed funds, then assigned funds, and finally unassigned funds.

NEW CANEY MUNICIPAL UTILITY DISTRICT NOTES TO THE FINANCIAL STATEMENTS MAY 31, 2024

NOTE 2. SIGNIFICANT ACCOUNTING POLICIES (Continued)

Accounting Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amount of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenditures during the reporting period. Actual results could differ from those estimates.

NOTE 3. LONG TERM-DEBT

Bonds payable activity for the current fiscal year is summarized in the following table:

	June 1, 2023		Additions			etirements	May 31, 2024		
Bonds Payable Unamortized Discounts Unamortized Premiums	\$	50,818,524 (47,576) 671,996	\$		\$	1,540,000 (2,042) 67,375	\$	49,278,524 (45,534) 604,621

^{*} In whole or in part on the callable date or any date thereafter, at a price equal to the principal amount plus accrued interest to the date fixed for redemption. The Series 2015 Refunding Bonds maturing on April 1, 2030 and 2033 are term bonds and subject to mandatory redemption beginning on April 1, 2027 and 2031. The Series 2016-A Bonds maturing on April 1, 2025, 2027, 2029, 2031, 2033, 2036 and 2038 are term bonds and are subject to mandatory redemption beginning on April 1, 2024, 2026, 2028, 2030, 2032, 2034 and 2037. The Series 2019 Bonds maturing on April 1, 2029 and 2039 are term bonds and subject to mandatory redemption beginning on April 1, 2028 and 2037. Series 2021 bonds maturing on April 1, 2036, 2038, 2040, 2043, and 2047 are term bonds and are subject to mandatory redemption beginning on April 1, 2033, 2037, 2039, 2041, and 2044, respectively. Series 2022 bonds maturing on April 1, 2034, 2036, 2038, 2041, and 2046 are term bonds and are subject to mandatory redemption beginning on April 1, 2031, 2035, 2037, 2039, and 2042, respectively

^{**} The Series 2015 Compound Interest Bonds par value is \$533,524 and the maturity value is \$1,145,000. Interest will be paid at maturity. As of May 31, 2024, accrued interest is \$230,321 and the accreted value of these bonds is approximately \$763,845.

NOTES TO THE FINANCIAL STATEMENTS MAY 31, 2024

NOTE 3. LONG TERM-DEBT (Continued)

The bonds are payable from the proceeds of an ad valorem tax levied upon all property subject to taxation within the District, without limitation as to rate or amount. As of May 31, 2024, the District had \$268,855,000 in authorized but unissued bonds for utilities and \$69,511,476 in authorized but unissued bonds for refunding purposes.

During the year ended May 31, 2024, the District levied an ad valorem debt service tax rate of \$0.375 per \$100 of assessed valuation, which resulted in a tax levy of \$3,121,174 on the adjusted taxable valuation of \$831,499,888 for the 2023 tax year. The bond resolutions require the District to levy and collect an ad valorem debt service tax sufficient to pay interest and principal on bonds when due and the cost of assessing and collecting taxes.

All property values and exempt status, if any, are determined by the appraisal district. Assessed values are determined as of January 1 of each year, at which time a tax lien attaches to the related property. Taxes are levied around October/November, are due upon receipt and are delinquent the following February 1. Penalty and interest attach thereafter.

NOTE 4. SIGNIFICANT BOND RESOLUTIONS AND LEGAL REQUIREMENTS

The bond resolutions state that the District is required by the Securities and Exchange Commission to provide continuing disclosure of certain general financial information and operating data to certain information repositories. This information, along with the audited annual financial statements, is to be provided within six months after the end of each fiscal year and shall continue to be provided through the life of the bonds.

The District has covenanted that it will take all necessary steps to comply with the requirement that rebatable arbitrage earnings on the investment of the gross proceeds of the Bonds, within the meaning of Section 148(f) of the Internal Revenue Code, be rebated to the federal government. The minimum requirement for determination of the rebatable amount is on each five-year anniversary of the bonds.

NOTES TO THE FINANCIAL STATEMENTS MAY 31, 2024

NOTE 5. DEPOSITS AND INVESTMENTS

Deposits

Custodial credit risk is the risk that, in the event of the failure of a depository financial institution, a government will not be able to recover deposits or will not be able to recover collateral securities that are in the possession of an outside party. The District's deposit policy for custodial credit risk requires compliance with the provisions of Texas statutes. Texas statutes require that any cash balance in any fund shall, to the extent not insured by the Federal Deposit Insurance Corporation or its successor, be continuously secured by a valid pledge to the District of securities eligible under the laws of Texas to secure the funds of the District, having an aggregate market value, including accrued interest, at all times equal to the uninsured cash balance in the fund to which such securities are pledged. At fiscal year end, the carrying amount of the District's deposits was \$8,706,775 and the bank balance was \$8,958,328. The District was not exposed to custodial credit risk at year-end.

The carrying values of the deposits are included in the Governmental Funds Balance Sheet and the Statement of Net Position at May 31, 2024, as listed below:

	 Cash
GENERAL FUND	\$ 2,160,606
DEBT SERVICE FUND	3,836,882
CAPITAL PROJECTS FUND	 2,709,287
TOTAL DEPOSITS	\$ 8,706,775

Investments

Under Texas law, the District is required to invest its funds under written investment policies that primarily emphasize safety of principal and liquidity and that address investment diversification, yield, maturity, and the quality and capability of investment management, and all District funds must be invested in accordance with the following investment objectives: understanding the suitability of the investment to the District's financial requirements, first; preservation and safety of principal, second; liquidity, third; marketability of the investments if the need arises to liquidate the investment before maturity, fourth; diversification of the investment portfolio, fifth; and yield, sixth. The District's investments must be made "with judgment and care, under prevailing circumstances, that a person of prudence, discretion, and intelligence would exercise in the management of the person's own affairs, not for speculation, but for investment, considering the probable safety of capital and the probable income to be derived."

NOTES TO THE FINANCIAL STATEMENTS MAY 31, 2024

NOTE 5. DEPOSITS AND INVESTMENTS (Continued)

<u>Investments</u> (Continued)

Texas statutes include specifications for and limitations applicable to the District and its authority to purchase investments as defined in the Public Funds Investment Act. The District has adopted a written investment policy to establish the guidelines by which it may invest. This policy is reviewed annually. The District's investment policy may be more restrictive than the Public Funds Investment Act.

The District invests in TexPool, an external investment pool that is not SEC-registered. The State Comptroller of Public Accounts of the State of Texas has oversight of the pool. Federated Hermes, Inc. manages the daily operations of the pool under a contract with the Comptroller. TexPool measures all of its portfolio assets at amortized cost. As a result, the District also measures its investments in TexPool at amortized cost for financial reporting purposes. There are no limitations on withdrawals from TexPool.

As of May 31, 2024, the District had the following investments and maturities:

Funds and Investment Type	Fair Value	Maturities of Less Than 1 Year
GENERAL FUND TexPool	\$ 2,603,103	\$ 2,603,103
DEBT SERVICE FUND TexPool	155,286	155,286
CAPITAL PROJECTS FUND TexPool	5,616,675	5,616,675
TOTAL INVESTMENTS	\$ 8,375,064	\$ 8,375,064

Credit risk is the risk that the issuer or other counterparty to an investment will not fulfill its obligations. At May 31, 2024, the District's investment in TexPool was rated AAAm by Standard and Poor's.

Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. The District considers the investment in TexPool to have a maturity of less than one year due to the fact the share position can usually be redeemed each day at the discretion of the District, unless there has been a significant change in value.

NOTES TO THE FINANCIAL STATEMENTS MAY 31, 2024

NOTE 5. DEPOSITS AND INVESTMENTS (Continued)

Restrictions

Hendricks Defined Area maintenance tax revenues recorded in the General Fund have been restricted for purposes discussed in Note 12.

All cash and investments of the Debt Service Fund are restricted for the payment of debt service and the cost of assessing and collecting taxes. Certain Debt Service Fund monies are also restricted for the future retirement of the Hendricks Define Area bond debt.

All cash and investments of the Capital Projects Fund are restricted for the purchase of capital assets. Certain Capital Projects Fund monies are also restricted for the payment of Hendricks Define Area construction related costs.

NOTE 6. CAPITAL ASSETS

Capital asset activity for the current fiscal year is summarized in the following table:

	June 1,			May 31,
	2023	Increases	 Decreases	2024
Capital Assets Not Being Depreciated				
Land and Land Improvements	\$ 4,164,276	\$	\$	\$ 4,164,276

Total Capital Assets, Net of Accumulated Depreciation	\$ 42,574,996	\$ 4,014,415	\$ 2,368,996	\$ 44,220,415

NOTES TO THE FINANCIAL STATEMENTS MAY 31, 2024

NOTE 7. MAINTENANCE TAX

The Board of Directors of the District have the statutory authority to levy and collect an annual ad valorem tax for planning, maintaining, repairing and operating of the District's improvements, if such maintenance tax is authorized by a vote of the District's electorate. Such tax would be in addition to taxes which the District is authorized to levy for paying principal and interest on outstanding bonds, and any tax bonds which may be issued in the future.

NOTE 8. RETIREMENT PLAN

In February 1991, the District approved a deferred compensation plan, which was created in accordance with Internal Revenue Code Section 457. The plan, available to all qualified employees, permits the employees to defer a portion of their salaries. The deferred compensation is not paid to employees until retirement, cessation of employment, death, or unforeseeable emergencies. Contributions to the plan are comprised of voluntary employee withholding and District contributions. Each individual employee's pension account is maintained by an independent third-party administrator to manage the plan. Vesting is immediate upon funding.

NOTE 9. RISK MANAGEMENT

The District is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; and natural disasters. The District carries commercial insurance for its fidelity bonds and participates in the Texas Water Conservation Association Risk Management Fund (TWCA) to provide property, general liability, errors and omissions, automobile, and workers compensation coverage. The District, along with other participating entities, contributes annual amounts determined by TWCA's management. As claims arise they are submitted and paid by TWCA. There have been no significant reductions in coverage from the prior year and settlements have not exceeded coverage in the past three years.

NOTE 10. LONE STAR GROUNDWATER CONSERVATION DISTRICT

The District is a part of the Lone Star Groundwater Conservation District ("Conservation District"). The Conservation District was created for purposes including the acquisition and provision of surface water and groundwater for residential, commercial, industrial, agricultural, and other uses, the reduction of groundwater withdrawals, the conservation, preservation, protection, recharge, and prevention of waste of groundwater, and of groundwater reservoirs or their subdivisions, and the control of subsidence caused by withdrawal of water from those groundwater reservoirs of their subdivisions. The Conservation District charges a fee to enable it to fulfill its purpose and regulatory functions.

NOTES TO THE FINANCIAL STATEMENTS MAY 31, 2024

NOTE 11. SAN JACINTO RIVER AUTHORITY

On June 17, 2010, the District entered into a contract for Groundwater Reduction Planning, Alternative Water Supply, and Related Goods and Services with the San Jacinto River Authority (the "Authority"). The District and the Authority operate within the boundaries of the Lone Star Ground Water Conservation District. The Authority has developed supplies of surface water that, when taken together with groundwater withdrawals to be permitted by the Conservation District, are reasonably believed to be adequate to satisfy the total water demands of Montgomery County. A surface water treatment and transmission system (the "Project") is proposed to be designed, constructed, operated, and maintained by the Authority in order to provide phased treatment, transmission, and delivery of the Authority's surface water to regulated users for blending with underground water supplies, so that regulated users may continue to pump groundwater. The Authority charges a fee, currently \$2.99 per 1,000 gallons, based on the amount of groundwater and surface water used. The terms of this contract expire on December 31, 2045. During the current fiscal year, the District recorded expenditures of \$1,226,946 in relation to this contract.

NOTE 12. HENDRICKS DEFINED AREA

The District's Hendricks Defined Area (the "Defined Area") was established pursuant to Texas Water Code Sections 54.801 through 54.812 and was confirmed by election held within the Defined Area on May 9, 2015. The Defined Area is comprised of approximately 83.6595 acres, located entirely within the District.

The District has \$9,410,000 in authorized but unissued bonds for utilities for water, sewer and drainage improvements to serve the Defined Area. Any bonds issued for the Defined Area are payable solely from a tax levied within the boundaries of the Defined Area and not on any other part of the District. During the year ended May 31, 2024, the District levied an ad valorem Defined Area debt service tax rate of \$0.20 per \$100 of assessed valuation, which resulted in a tax levy of \$86,583 on the adjusted taxable valuation of \$43,291,220 for the 2023 tax year. See Note 3 for additional information related to outstanding Defined Area bonds.

Although the District does not own or maintain any stormwater drainage or detention facilities outside the Defined Area, it has contracted to acquire the stormwater drainage and detention facilities constructed to serve the Defined Area and will maintain such facilities with proceeds of the Defined Area's maintenance tax. The District will set the Defined Area maintenance tax annually at a level sufficient to provide annual maintenance of the stormwater drainage and detention facilities constructed to serve the Defined Area and to provide an adequate reserve for any major renovation or replacement of such facilities.

NOTES TO THE FINANCIAL STATEMENTS MAY 31, 2024

NOTE 12. HENDRICKS DEFINED AREA (Continued)

On May 9, 2015, voters authorized implementation of an operations and maintenance tax not to exceed \$1.50 per \$100 valuation of taxable property within the Defined Area. During the fiscal year ended May 31, 2024, the District levied an ad valorem maintenance tax of \$0.30 per \$100 of assessed valuation within the Defined Area, which resulted in a total tax levy of \$129,874 on the adjusted taxable valuation of \$43,291,220 for the 2023 tax year.

NOTE 13. ESCROW REQUIREMENTS

By Order dated August 31, 2021, the District was required to properly escrow \$8,345,942 of the proceeds from the Series 2021 Unlimited Tax Bonds. On August 6, 2024, subsequent to year end, the Commission authorized the release from escrow of \$1,700,402. Following this release, no funds will remain in escrow.

NOTE 14. SUBSEQUENT EVENT - BOND SALE

On July 9, 2024, subsequent to year-end, the District closed on the sale of its \$26,635,000 Series 2024 Unlimited Tax Bonds. Proceeds of the bonds are will be used to fund construction and engineering costs for the following projects: elevated storage tank no. 2; water plant no. 4; administration building; sanitary sewer rehabilitation; waterline extensions - phase E; and property acquisitions. Bond proceeds were also used to pay for bond issuance costs.
